

SEMINOLE FEED®

Seminole Feed® Senior Formula

Seminole Feed® Senior Formula is scientifically formulated to meet the special needs of older horses and is ideal for all life stages. This low starch formula is dust-free and easy-to-chew.

WHY SEMINOLE FEED® SENIOR FORMULA?

Fixed Formula

Contains Ultra Bloom®, Ground Flax Seed & Soybean Oil

Yucca schidigera

Antioxidants

Yeast Culture

Biotin, Methionine & Zinc

High Caloric & Nutrient Content

Lysine

GUARANTEED ANALYSIS

Crude Protein (min)	14.0%	Potassium (min)	1.10%
Crude Fat (min)	7.0%	Magnesium (min)	0.25%
Crude Fiber (max)	16.0%	Zinc (min)	120 ppm
Calcium (min)	0.80%	Copper (min)	50 ppm
Calcium (max)	1.00%	Selenium (min)	0.40 ppm
Phosphorus (min)	0.50%	Vitamin A (min)	6,000 IU/lb
Lysine (min)	0.70%	Vitamin D (min)	300 IU/lb
Methionine (min)	0.20%	Vitamin E (min)	100 IU/lb

INGREDIENTS

Dried Beet Pulp, Soybean Hulls, Stabilized Rice Bran, Dehydrated Alfalfa Meal, Wheat Middlings, Dehulled Soybean Meal, Ground Oats, Cane Molasses, Soybean Oil, Yeast Culture, Ground Flax Seed, Selenium Yeast, Dried Saccharomyces Cerevisae Fermentation Solubles, Brewers Dried Yeast, Yucca schidigera, Biotin, L-Lysine, DL-Methionine, Monocalcium Phosphate, Dicalcium Phosphate, Calcium Carbonate, Salt, Propionic Acid (Preservative), Phosphoric Acid, Hydrated Sodium Calcium Aluminosilicate, Copper Sulfate, Zinc Oxide, Ferrous Sulfate, Manganese Sulfate, Calcium Iodate, Cobalt Carbonate, Copper Proteinate, Manganese Proteinate, Zinc Proteinate, Cobalt Proteinate, Vitamin A Supplement, Vitamin D₃ Supplement, Vitamin E Supplement, Folic Acid, Niacin, Riboflavin Supplement, Calcium Pantothenate, Pyridoxine Hydrochloride, Choline Chloride, Thiamin Mononitrate, Vitamin B₁₂ Supplement.

Seminole Feed® Senior Formula

Feeding Directions

Seminole Feed® Senior Formula is a low starch, premium quality, complete feed, scientifically designed for aged horses. Senior Formula can be fed with forage or as the sole ration if your aged horse is unable to readily consume hay, pasture or other long-stemmed forage. Start the feeding program using the Daily Feeding Guide for the type of roughage fed and class of horse. After observing and/or weighing the horse for a period of time, increase or decrease the daily feeding rate to obtain the desired body condition or body weight.

If your Senior horse has lost teeth or has dental problems and can no longer chew or swallow hay, this feed can be fed at a higher level, usually up to 2% of body weight per day. This feed can be soaked in water and fed as a mash. It is recommended that if your horse cannot consume hay or grass that an alternative form of long-stem fiber be fed. Hay cubes or chopped hays can be soaked in water and fed to these horses. When the amount of feed exceeds 1.5% of the horse's body weight, it should be divided and fed in 3 or more feedings per day.

Do not feed Senior Formula on a free choice basis. Feed at regular times with two or more equal feedings per day. Make all feed changes gradually, over a 7 - 10 day period. Increases in feeding rate should not exceed 1 pound per day for an individual horse. Delay feeding a horse that has just been exercised or is exhibiting pain, fever or diarrhea. Senior Formula weighs approximately 1.6 pound per dry US quart. Feed hay and/or equivalent pasture at the rate of 1 to 2 pounds per 100 pounds of body weight daily. Provide a free-choice horse mineral such as Seminole Grass Balancer 16:8 Mineral or Alfa Balancer 12:12 Mineral on a continuous basis. Provide clean, fresh water at all times.

Daily Feeding Guide

Recommended Daily Feeding Rate in pounds of feed per 100 pounds of body weight or as a percentage of body weight (BW).

Class of Horse		Total Feed Concentrate in Diet			
		When fed with Grass Hay,* Forage Product or Pasture	When fed with Mixed Hay,* Forage Product or Pasture	When fed with Legume Hay,* Forage Product or Pasture	Total Hay or Forage in Diet (% of BW)
Maintenance Horses	Mature Maintenance Horse	0.25 - 1	0.25 - 1	0.25 - 1	1.5 - 2.0
Performance Horses	Light Work	0.25 - 1.25	0.25 - 1.25	0.25 - 1.25	1.0 - 2.0
	Moderate Work	0.5 - 1.25	0.5 - 1.25	0.5 - 1.25	1.0 - 2.0
	Intense Work	0.5 - 1.25	0.5 - 1.5	0.5 - 1.25	1.0 - 2.0
Breeding Horses	Pregnant Mare (1-8 mos.)	0.5 - 1	0.5 - 1	0.25 - 0.75	1.5 - 2.0
	Pregnant Mare (9-11 mos.)	0.5 - 1	0.5 - 1	0.5 - 0.75	1.0 - 2.0
	Breeding Stallion or Mare	0.5 - 1	0.5 - 1	0.5 - 1	1.5 - 2.0
Lactating Mares	Early Lactating Mare (1-3 mos.)	0.75 - 1.5	0.75 - 1.5	0.75 - 1.5	1.0 - 2.0
	Late Lactating Mare (4-6 mos.)	0.75 - 1	0.75 - 1	0.75 - 1	1.0 - 2.0
Growing Horses	Foal/Weanling	1 - 1.5	1 - 1.5	1 - 1.5	0.5 - 1.0
	Yearling	0.75 - 1.25	0.75 - 1.25	0.75 - 1.25	1.0 - 1.5
	2 - 3 Year Old	0.75 - 1	0.75 - 1	0.75 - 1	1.0 - 1.5

*Protein content of hay is assumed to be: Grass = 8%, Mixed 50/50 = 12%, Legume (Alfalfa or Peanut) = 16%
 **Forage Products include chopped hays and cubed hays.
